

The St. Augustine riding into history concourse for 2008 was a great event

The featured Marque this year was competition at least that's the way bill the program read. The term Marque to me means a particular brand such as Ducati, Harley, Triumph, BMW, or Honda. However, I was just an attendee. A grateful gratified attendee, because of the weather for free admittance for being an exhibitor and winning an honorable mention plaque. Yes the old domestic modified CB 750 Honda won an honorable mention. A VFR 1000F won first-place and what beauty it was. I missed a photo opportunity.

Mert Lawmill was the master of ceremonies, and there was a seminar featuring Craig Vetter.

There are numerous rides, and on Saturday evening, there is a bikers Ball featuring formal biker gear. The entire weekend is sponsored by Cycle World magazine. You can get all the details you need by going to www.RidingIntoHistory.org for this year's event pass events and future events. Hope to see there next year.

Here's hoping to give you a wave from the oncoming Lane.

Ross
